EDUCATION

2019 - Present **Bachelor of computer science**
Lebanese university, Tripoli
I'm a senior student and I'll finish my last semester by the end of august this year.

EXPERIENCE

- **Coding Educator**
Bright Champs academy, Remote | Jan 2022 - April 2022
I worked for this company for a couple of months , we were using zoom to educate little rising champs (6-12y) and help them get a firm grip on coding.

PERSONAL BLOG POST

personal project

A Blog post built with technologies (php, Laravel, MySQL ,Blade , Alpine.js , tailwind, git) , I worked on many aspects of back end development such as routing , creating models/controllers , user authentication and admin section . I also used Blade templating engine along with tailwind and alpine.js for the UI.

PHP FRAMEWORK

personal project

I built this framework while learning php implementing functionalities such as routing , database interaction and also creating Models /controllers/views which helped me understand the MVC architectural pattern .

AMAZON CLONE

personal project

A front end only website I built replicating the famous website amazon.com, I used technologies such as js, react, redux, MUI for frontend , git for version control and firebase for user authentication and deployment.

WINNERFORCE CLONE

personal project

A front end only website I built along with my friend we used js, react, redux, git , MUI and firebase i worked on the react / redux logic for state management and used fire base for auth and deployment.

CERTIFICATIONS

FRONT END DEVELOPMENT LIBRARIES

FreeCodeCamp Developer Certification , representing approximately 300 hours of coursework.

JAVASCRIPT DATA STRUCTURES AND ALGORITHMS

RESPONSIVE WEB DESIGN
