Ghassan El Bounni
SOFTWARE ENGINEER

Lebanon | +961 79 149805 | ghassan.bounni18@gmail.com | ghassan-bounni.github.io

Summary

Junior software engineer seeking to apply and expand my knowledge and skills toward working in a collaborative environment to develop quality software solutions and solve business problems.

Education

Lebanese University faculty of science   2019 - 2022

Bachelor of Computer Science

Skills

HTML , CSS , MUI , Tailwind css , javascript , java , Reactjs , Vuejs ,sql/mysql, PHP , Laravel , Blade , inertia , git/github, C , C# , python ,Android studio , Linux , DataStructures and algorithms.

Work experience

Bright Champs academy, Remote   Jan 2022 - April 2022

Coding Educator

I worked for this company for a couple of months , we were using zoom to educate little rising champs (6-12y) and help them get a firm grip on coding.

Blog Post website

Personal Project

A blog built with technologies (PHP,Laravel,MYSQL,Blade,Alpine.js, tailwind, git) , I worked on many aspects of back end development such as routing, creating models/controllers, user authentication and admin section. I also used blade templating engine along with tailwind and alpine.js for the UI.

PHP Framework

I built this framework while learning PHP implementing functionalities such as routing , database interaction and also creating Models/controllers/views which helped me understand the MVC architectural pattern.

Winnerforce clone

Personal Project

A front end website I built along with my friend , we used js , react , redux , MUI and Firebase , I worked on the react/redux logic for state management and used Firebase for auth and deployment.

winnerforceclone.web.app

Amazon Clone

Personal Project

A front end website I built replicating the famous website amazon.com , I used technologies such as js , react/redux, MUI for front end , git for version control , Firebase for user authentication and deployment.

clone-2e265.web.app

Certifications

Front end Development Libraries .

JavaScript Algorithms and data structures .

Responsive Web Design .

these certificates are from FreeCodeCamp.org , Each representing approx. 300 hours of course work.
